

independent

Investment-App

60% of millennials realize they should invest, but 56% say they don't know enough to invest. (BlackRock, 2019)

That's why we want to make investing as simple, as saving on a bank account

- Start with only **CHF 2'000**
- **Open your account in less than 10 minutes** anytime, anywhere
- Manage everything in the app
- Pay in or take out money into your account whenever you want
- Get push-notifications and an **overview about generated income and incurred fees** every quarter
- **Decide every quarter if you want to invest generated net-income** or use it for something else

Why findependent

More than 0.001%

Make more out of your money with our investment app

Fair and transparent fees

60% lower fees than comparable bank products

Full bank security

With your account at Hypothekarbank Lenzburg

Easy to understand

We take care of your investments and financial markets

Findependent AG
